Specification	
Vinification	Grapes were harvested at night to enhance flavour and to minimise oxidation. They were crushed, chilled, pressed and clarified. Fermentation takes place over several days and is controlled at a relatively cool temperature (14°-16°) to enhance varietal flavours. The individual parcels are then blended to style, balancing the wine to produce a fruit driven Chardonnay. This wine was aged on American oak for approximately four months to give it the beautiful spiced oak lingering finish.

He goes further by suggesting its 'good depth and balance is accompanied by plenty of good fruits and freshness'.
